Next Meeting

Saturday, November 9th
TIME: 9:30 a.m.

WHERE: Mountain Home VFW 214 West 7th Street
DEMO: Heather Link a graphic designer will be giving a demonstration on laser engraving. She will also have a display of her work. Heather owns Heather Link Designs (she is the granddaughter of Paul Pierman) .

Ozark Woodturners News

- **Craft Fest**—Ozark Woodturners will participate in the Fall Craft Fest November 22nd and 23rd. The club will have two tables. All are asked to donate pieces to be sold with proceeds going to the club. You can bring your donations to the November Meeting. VA pens will also be sold.
- **Dues**—Dues collected in November & December for 2025 will be discounted to \$25 (Individual) \$40 (Family). January they go back up to \$30 (Individual) \$45 (Family).

President's Message

I know everyone is tired of all the election campaigning across the country, but it's also time for Ozark Wood Turners to nominate new officers for 2025. We will be seeking nominations please consider stepping up!

I want to apologize for the heart bowl demo. I thought we were filming and everyone could see. I know without the TV monitor any visual demos are useless. I brought the busted tripod and camera home. Both are working now so hopefully we are good to go. If you want me to demo the heart bowl again, please let me know.

Newsletter Editor: Linda W. Moore

President's Message (cont)

Phil Pierman's granddaughter will be giving a demo on laser engraving. This technique can and will enhance any wood project. So, for all you tech savvy people here's one for you! I am really looking forward to meeting her and learning something new.

I will see you on the 9th!

Steve

Meeting Minutes October 10th

Officers Present: Steve Wagner, President; Dallas Hensley, Vice President; Linda Moore, Treasurer; Sandy Lord, Secretary, Rich Lindner, Librarian

Members Present: 19 **Guest:** 2

Announcements:

- ◆ Steve received a request from a lady in Harrison for someone to make and match 10-20 spindles for her home. Steve has her contact information if anyone is interested. He also noted that there is a Christmas ornament challenge at ornamentchallenge.com. Send them a photo and you might win a prize.
- ◆ Linda stated that we need one more volunteer for the craft fair on Friday morning.
- ◆ Please be sure to bring in your donated items by the next meeting.

Show and Tell:

- ◆ Rick showed 2 bowls, one of which was made from sentimental woods from his home. Each ring was labeled with what piece of furniture it was turned from. This was a very creative idea which everyone enjoyed.
- ◆ Terry displayed a potpourri bowl with a pewter lid.
- ◆ Bill showed a spindled flower holder and a segmented bowl with a lipped edge.
- ◆ Ray showed a natural edge bowl.
- ◆ Steve displayed several heart bowls, one of which was made from two different woods put together with resin.
- ◆ Steve won the \$10 gift certificate from Craft Supply.

Demonstration:

- ◆ Steve demonstrated how to turn a heart shaped bowl. He cut out the heart pattern with his band saw. Steve noted that when joining the two pieces of wood with the epoxy resin, you need a deep channel to allow for all the air bubbles. Phil stated that he gets bubble-free resin which everyone was very interested to hear about. Steve also remarked how much he enjoys his DA orbital sander which he got from Amazon.
- ◆ Next month, Paul Pierman's granddaughter, will demonstrate laser engraving.

Fifty/fifty: The \$42 50/50 drawing was won by Terry Nance. Since he had already left, Linda Moore will mail him a check.

Respectfully Submitted: Sandy Lord, Secretary

October Demonstration

Steve Wagner demonstrated how to make a heart bowl.

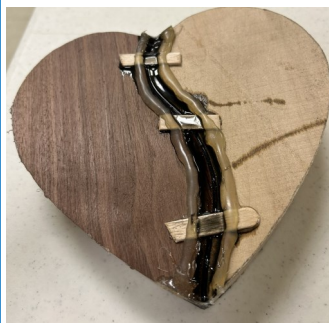

Starting with a 1 3/4 inch piece of mulberry, Steve outlined the heart using a pattern (see link below). He then cut the heart form using the band saw. A screw chuck was used to mount the wood. In order to reduce the depth of the screw into the piece, he used a wooden washer/shim.

Working on the bottom, he created a tenon. Steve wanted to create a 3/8 inch thickness, so he marked that on the sides so he knew how far up to cut. Initially he cut to the mark and then worked specific areas to be sure he had a consistent thickness around the shape. Sanding the bottom was performed before he turned the heart over to put the tenon into the chuck.

To remove some of the mass and define the depth of the bowl, he used a fostner bit. Then he cut the face down to the desired thickness and sanded the edges of the bowl. Next he shaped the inside of the bowl smoothing out the transition to the edge using a shear cut. To finish the interior he used a negative rake scraper. The tenon was removed using a jam chuck.

In preparation for this demo Steve made sixteen hearts, he has eight of them spoken for. The Walnut/Maple heart was made by cutting the "S" shape with the boards stacked and cut on the band saw. Then the two pieces are epoxied to create the board to be cut into a heart.

October Show & Tell Pictures by Bob Shaffer

EDITOR'S PICK

Rex Guynn—Using plywood from sentimental pieces of furniture (his parent's bedframe, family Duncan Phyfe dining table) he created this master piece. The identification of the wood sources added a special touch. The finish is lacquer.

October Show & Tell Pictures by Bob Shaffer

Terry Butler—This potpourri box is made from Box Elder.

Ray Peacy—Pecan natural edge bowl. Finish is 4-5 coats of tongue oil.

October Show & Tell Pictures by Bob Shaffer

**Rex Guynn—Pecan hallow form
with a clear coat resin finish.**

**Bill Dorzok—Floral center piece made
from Walnut with a poly finish. A ring
bowl featuring Birdseye Maple. Finish is
wipe on poly—5 to 6 coats.**
