

Woodturning Design Index

Woodturning Design has had many requests for an index of the articles from all our back issues. We are printing this index as a special feature in this issue, plus it is also available (and will continue to be available) on our website at www.woodturningdesign.com.

Order of Reference:

Issue: year, page numbers (for example – 02:05, 22-26 = Issue 2: year 05, pp 22-26)

The first six issues did not have identifying issue numbers. However, starting with issue #7, the number was on the spine, and starting with #13, the number was on both the spine and the front cover. Listed below are the first six issue numbers with the corresponding dates:

Issue #1: Spring 2004 — Issue #2: Summer 2004 —
Issue #3: Fall 2004
Issue #4: Winter 2005 — Issue #5: Spring 2005 —
Issue #6: Summer 2005
